The committee to whom was referred the duty of getting our present Digest revised have submitted the draft of an of the new Diges'. By adopting th suggestions made much surplusage and expense will be avoided, and many important amendments incorporated the new volume of ordinances. But I would suggest that the provision of the ordinance be referred to a joint committee of both boards for their examination and report before final adoption. I would also make this suggestion; that some resolution of your body be passed that hereafter in repairing on streets, when the same has been or may be ordered, the engineer be instructed to use stone instead of wood, if not more expensive. The duty is imposed upon you at this time of electing a police commissioner for the next five years, the term of Mr. Magevney having expired. I refer to the comptroller's report (not made up at our last regular meeting) as an exhibit of our flusneial condition for the first quarter of 1876. There is a decline in both our bonded and floating indebtedness, but not to such an extent as to appreciatly relieve us from our

enormous debt. In the city's present condition it is simply a matter of impossibility to pay her honest debts. It is utter inability, and not disnelination. We hope, at no distant day, some plan about to open at Philadelphia. I feel or scheme will be devised which will be both proud and gratified that Memphis, to the interest of our creditors and the city to accept. I sm hopeful and be-lieve that this may be accomplished. We want to pay, and should pay, to the extent of our ability; we can do no more. As to the persons who hold what is known as the Nicolson pavement scrip, we think that there should be some recognition of these claims, and that some satisfactory adjustment of the same should be made at an early day, upon a basis consistent with the merits of the claims and the impoverished condition of the city. This matter I again refer to you for your consideration. On metion, the message was received, and the points made duly considered.

The election of a member to fill the vacancy on the fire and police commission resulted in the re-election of Mr. Magevney. The joint session was then dissolved.

COMMON COUNCIL. The common council met in regular session, at the city hall, yesterday afternoon, Mr. Williamson in the chair, and a quorum present. OUR SCHOOLS.

A Letter from State Superintendent Trousdate-Memphis School Children's Work at the Centen-

The following letter, which sufficiently exclains itself, will be read with pleasure by the parents, guardians and friends of the pup is of our public schools:

Office of State Superintendent, NASHVILLE, May, 1, 1870. Mr. A. Pickett, Super ntendent of the City Schools, Memphis: DEAR SIR-Your favor of the twentysixth instant, inclusing draft for eighty-three dollars and forty-five cauts, was received during my absence at Murfreeboro in attendence upon a division teachers' inglitute. The amount for which your draw was sent is the contribution of the city of Memphis to arrist in paying the expense of an exhibition the educational status of Tennesses at the international exhibition, now both proud and gratified that Memphis, so long my own home, has thus contrit uted more than her proportion toward an object so worthy and so important to her own interests; for, though the amount is small, it is quite as much as is needed for the purpose. The school work of Tennessee, in which the Memphis schools figure conspicuously and honorally, has gone forward, and occupies one of the most eligible spaces the main exhibition half. I cannot but congratulate you, sir, upon the promptness and cheerfulness with which you responded to my request: to impro vise some school exercises which would not need extra preparation, in connec ion with a lecture prepared by myself. with the view of raising the necessary amount. Your part of the work was satisfactorily performed, and resulted happily-through the appreciation of the liberal-hearted citizens of Memphis-in effecting the important object intended thereby. Similar exercises were brought out in this city by City Superintendent S. T. Caldwell, at my request; and thus

work which, I feel assured, will redound to the credit of our beloved State. I am, sir, very truly yours, LEON TROUSDALE. Potomac Shad
